President’s Message

Most of us have seen the Senate hearings on Supreme Court nominee, Sonia Sotomayor. The question was asked in many ways, “Will the fact that she is a Latina woman have any impact on her rulings?” The question that should be asked is, “Has the fact that the court and the government and most large companies are headed by white men had a detrimental effect on the rest of the population?”

Somewhere is the idea that these white men know what is good for the rest of us and their way of thinking should always be the “right way of thinking.”

Is it? Never once was that question asked.

The person who kept hammering at Sotomayor was a known racist who supported the KKK. We need a more diverse Supreme Court. One that reflects the best of all of us.

I felt that the worst ruling of our present Supreme Court was against the woman who was suing her company because of wage differences with men in the same job. This Supreme Court said, “Because she did not sue when she did not know when this wage difference started, she could not sue now”.

Would such a ruling have been made if the court had been reflective of the entire population?

Religious Education Planning Meeting

Please plan to attend this important meeting to plan the program for our children. You don’t need to have a teaching background - we all have things that we can share with the children that will be of value. We have lots of materials to work with. And you don’t need to do it all alone - we need to have two people with the children each time. Please come - we all need to get to know our young people - they’re delightful!

Unitarian Universalism is an inner-directed faith, building values and standards from within outward, creating an internal fortress for survival. It helps people face more realistically the issues of life, struggle, despair and defeat. At the same time it encourages greater joy, through freedom from fear, in living a rich, full life on this earth, which is all the Heaven (and Hell) it promises.
